PROFESSIONAL TOOLS

BAUM FLAG ON MOUNT EVEREST

THE HIGHEST PEAK IN WORLD

MAY 21 2018

BAUM HAND TOOLS

Since 1974, **BAUM** has been proudly offering quality and innovative hand tool solutions. For over 45 years, we have built a legacy by producing some of the most well known hand tools and storage products in the world, all to help you build a legacy of your own.

We are committed to bringing you durable and quality tools that are inventive & distinct. With superior quality, constant innovation and rigorous operational improvements, **BAUM** defines excellence and is trusted by professionals around the world.

We know that to be successful in the hardware industry it is necessary to work as a team and to have long-term business relationships based on trust, respect and shared goals. That is why we are committed to acting in a transparent, honest and upright manner with every person that contributes to developing and strengthening our company: users, clients, suppliers & collaborators. Coupling this philosophy with hiring and retaining the greatest of people, one of any company's most important assets, gives us invaluable competitive advantages. Presently **BAUM** is the most renowned and widely used brand in the country's hardware market.

PRODUCTION OF SPANNERS

1. High Quality CrV Steel - Cut the Blank

2. Forgings

3. Trimming

4. Punching - Soft Barrel - Polishing

5. Stamping

6. Broaching

7. Heat Treatment - Shot Blast - Polishing - Vibro Polishing

8. Electro Plating Finish - Finish Products

OEM/ODM

Yes Available in your Brand

SUPER DRIVE BROACH

Baum Super Drive Broach stops bolts from "turning round and round " by using of a wave form without any tipped or sharp edges. Enlarged, round contact surfaces of the Baum Spanners ensure that torque is reliably transferred - acting uniformly, as it does, on the bolt. The resulting minimized notching effect prevents any damage to the bolt profile. This represents added safety since - even with damaged bolts - there is no slipping.

- ① A large contact surface provides a secure force closure even for those bolts whose sizes lie outside of the tolerances.
- ② Uniform distribution of the force on the bolt flanks. The resulting reduced notching effect stops the bolt from turning round & round.
- ③ Gentle torque transfer enables even worn bolts to be unscrewed with every certainty - no slipping of the tool at all.
- ④ The most suitable distribution of torque, thanks to strength It transferred 20% higher.

DRIVES

Special Drives - Make work easy

BAUM Super Drive Ring Broach

BENEFITS OF SUPER DRIVE BROACH

- This super drive open ended wrench is capable of operating at 30° angle
- Reduced stress from larger contact areas • No sharp angles within the tool
- Torque transmission through fastener flats, Longer life.

BAUM Super Drive Open Broach

BENEFITS OF SUPER DRIVE BROACH

- This super drive open ended wrench is capable of operating at 30° angle
- Reduced stress from larger contact areas • No sharp angles within the tool
- Torque transmission through fastener flats, Longer life.

Multi Drive Ring Broach

BENEFITS OF MULTI BROACH

- The revolutionary invention of multi drive wrenches can be used on all types of bolts and nuts.

Multi Drive Open Broach

BENEFITS OF MULTI BROACH

- The revolutionary invention of multi drive wrenches can be used on all types of bolts and nuts.

Spline Drive Broach

BENEFITS OF SPLINE BROACH

- Vast shape variety • Close tolerances • Fast, precision results
- Single-pass roughing, semi-roughing and finishing

Dynamic Hex a Broach

BENEFITS OF DYNAMIC HEXA BROACH - open end

- Dynamic hexa profile forces only on the flats not on the corners of the fasteners.

Ratchet Broach

BENEFITS OF RATCHET BROACH

- Ratchet broach allowing the user to reposition the wrench having to disengage it from the fastener • 30° increments • Narrow ends for better accessibility in tight area

"V" Type Broach

BENEFITS OF "V" TYPE BROACH

- Vast shape variety • Close tolerances • Fast, precision results

Why Matt Chrome - Plated ?

- Non-glare look
- Non-slip surface for a firm grip even when hands are dirty
- Double protection against corrosion. A nickel layer is applied before chrome-plating.
- Nickel and chrome: these two layers combine to form optimum protection against corrosion.

Art - 12

Double Open End Spanners

Recessed Panel Short Pattern

- Made from Carbon Steel / CrV Steel • Recessed Panel
- Lifetime Warranty • Hardened and Tempered
- Double Layer Chrome plated / matt finish

Water Pump Pliers - Push Button - Quick Set

- Made from Chrome vanadium steel, forged
- Additional fast adjustment on the workpiece by sliding the pliers handle
- Combines the proven, reliable locking of the hinge bolt with an additional push function which makes it easier to work in very confined and inaccessible areas
- securely lock of the hinge bolt with the first workload The gripping width of the pliers is then fixed and can only be adjusted by pressing the button
- To re-activate the sliding function, the hinge bolt must be released by pressing the push button and the pliers must be completely opened again

Lever Grese Gun

Professional

- Die cast attractive head
- Heavy constructed steel painted V-type pulling rod
- Back cap easy for cleaning barrel
- Machined non return valve
- Side port for bulk loader or air bleeder
- Lock lever mechanism for easier loading & bleeding
- 6" steel extension or 12" flexible hose with jaw type coupler as per order
- Precision steel pump mechanism, no false lubrication, no wearing seals.
- Short-stroke feed system, grease feed possible at any opening angle, two inlet openings, good grease flow even at low temperatures.
- Filling and bleeding valve. Filling possible with cartridges, loose grease and with filling unit.
- Dosing scale for controlled grease outflow.
- Grease and oil-resistant special sealing piston.
- Rugged precision pipe.
- Closed piston-rod handle.
- Locking system - step less, anti-slip piston rod locking - no accidental triggering .
